

What the Canadian press says about Ferguson Hill's FH007 & FH008 Home Audio System

The Ferguson Hill FH007 & FH008 home audio system plugs and plays with TV's, Computers, Hi-fi systems and MP3 players. This uniquely stylish system was launched in Canada by Ferguson Hill UK and Dell Canada in November 2007. Since then it has received rave reviews and buy recommendations from both the public and press. Below is a selection of comments:

Canada's Shopping Expert

"A beautiful design that sounds awesome"

"When using the system with your TV, the results are so mesmerizing that it is impossible to change channels"

– Jack Kapica

The No 1 magazine for the North American Audio Enthusiast

"The FH007 exhibits high end traits I never expected to find in a speaker system that can be used with your PC. It has a sound stage that no other PC speaker can match and the FH008 subwoofer is without question the best subwoofer we surveyed"

"Blows the Bose speakers out of the water... Trust the Brits to make speakers this cool"

What the rest of world thinks of the FH007 & FH008
